PROGRESS REPORT OF THE GEOGRAPHIC AREA, ORR

MONTH OF NOVEMBER 1958

OFFICE OF THE CHIEF, GEOGRAPHIC RESEARCH

3-D/GG

2-D/GC

2-D/GL

1-Chron

1-Mon Rpt

A. Accomplishments and Coordination Activities

1. Production in the Geographic Research Area dropped to more normal levels during the month of November. Both projects completed and those in hand reflect the recent trend toward more active relationships with the ERA. Major work in progress included the compilation of an intelligence atlas of the USSR, and continuation of programs concerned with USSR city plans, Unconventional Warfare, NIS and Soviet geodesy - Antarctica. Two new projects have been developed in coordination with components of M/Ag and one in coordination with SAC.

2. The Cartography Division completed 115 maps and charts -- 113 for the Agency and 2 for the Department of State. Requests accepted numbered 85 -- 81 for the Agency and 4 for the Department of State.

3. The Geography Division completed two Geographic Intelligence Reports (GR-200, Geographic Intelligence Divisions of the World: Part V, Western Hemisphere; and GR-200, one geographic intelligence memorandum in the CIA/RR-GM series (GM-11, Macedonia: Perennial Bone of Contention); one contribution to the Chapter I Annual on Thailand; and six support jobs in the G/E, G/I, and G/S series.

4. The Map Library Division received 6,300 foreign-published maps during November, of which 35% were retained in CIA; 31% sent to AMS; and 28% to the Library of Congress. The Division sent out 23,046 maps in response to 1,273 requests; in addition, 336 geographic and cartographic items were distributed in response to 145 requests.

25X1A1a 5. Chief, Far East Branch, Geography Division, visited SAC Headquarters at Omaha, in company with to confer with SAC officers on the SAC Target Charting Program and to develop a revised approach to the preparation of E and E planning studies. As an outgrowth of the trip, a special E and E project which incorporates fallout data has been undertaken for SAC.

~~SECRET~~

S-E-C-R-E-T

6. Progress on the USSR city plan program was excellent during the month. One plan has been completed, one is in reproduction, one in drafting, and three in compilation. Further discussions were held with DD/P and PIC personnel, and details relative to greater utilization of the map bases being prepared were agreed upon. [REDACTED] has allowed D/GG researchers full access to its urban files.

7. The Ad Hoc Committee on Graphics for Section 19, Chapter I, of the NIS completed its mission and was dissolved during the month.

8. At the invitation of Chief, Cartography Division, Mr. Gordon Stine, Chief of the Cartography Division, ACIC, and his deputy, Mr. Luber, visited D/GC on 19 November to observe CIA terrain shading work.

25X1A6a 9. A selected group of maps and documentary materials which will aid the accomplishment of covert collection in the mapping field was dispatched [REDACTED] by the Map Library Division. The shipment represents a follow-up on the recent conversations held by the Chief, Map Library Division, [REDACTED].

25X1A9a 10. [REDACTED] of the Coordination Staff, Geography Division, visited ACIC in St. Louis during the month to discuss the major problems that have been encountered in the coordination of ACIC contributions to the Chapters IX and related Sections 19 of the NIS.

MONTHLY REPORT FOR THE CARTOGRAPHY DIVISION

Month of November 1958

A. Summary of Cartographic Production and Accomplishments

1. During the month of November, the Cartography Division accepted requests for 85 maps and charts, 81 for CIA and 4 for the Department of State. Of the Agency requests, 27 were for OER, 15 by OSI, 10 as CIA contributions to NIS, 1 by ONE, 9 by OCI, 1 by OCR, 12 by DD/P, and 1 by DD/S.

2. During the month the Division completed 115 maps and charts, 113 for the Agency and 2 for the Department of State. Cancellations during the month were 3.

3. The NIS Map Coordinator received 45 new job requests during the month, 13 NIS maps for final printing, 15 NIS maps for color proofing and 17 maps were rerun for D/GI and PIC. A total of 45 jobs were sent by the Coordinator to reproduction during the month, 21 final NIS maps, 15 color proofs and 9 reruns. Receipts from reproduction totaled 42 maps, 19 final NIS maps, 3 color proofs and 20 reruns. Fifty-one map requests remain in the Coordinator's office at the end of November; 12 for final reproduction and 39 for reruns.

4. The total number of maps and charts in the Division at the end of November was 373, distributed among the Branches as follows:

USSR & Satellites	50
Far East & Western Hemisphere	87
Europe-Africa	43
Special Support	32
Development & Construction	161
(Exclusive of Drafting Sec.)	
Total:	373

5. Manhours required by overtime during November amount ~~25X1A97~~ 82 in the Development and Construction Branch (30 of which were by ~~25X1A97~~ for OTR), and 6 in the Special Support Branch. No overtime was worked by the Compilation Branches.

B. Administrative Problems and Other Activities

25X1A9a

1. ~~25X1A97~~ of the Development and Construction Branch resigned during the month to return to the West Coast where he plans to continue his academic work.

25X1A9a

2. Mr. Gordon Stine, Chief of the Cartography Division, ACIC, and Mr. Luber, visited the Division on 19 November for the purpose of evaluating the work being done on terrain shadings. Considerable time was spent with ~~25X1A97~~ discussing mutual problems in this field. The visit of Messrs.

Monthly Report - Cartography Division

November 1958

25X1A9a

Stine and Luber was by invitation of [REDACTED] as a return courtesy for the excellent visit he recently had at ACIC.

3. Progress on the city plan map program for the DD/P area was excellent during the month. One plan has been completed, one is in reproduction, one in drafting and three in compilation. Further discussions were held with DD/P personnel and details relative to greater utilization of the bases being prepared were agreed upon.

25X1X7

25X1X7a Further progress was also noted in [REDACTED]
[REDACTED] D/GC is on schedule with its commitments on this program.

5. Overtime work during the month continued the decrease noted in previous months. Every effort is being made to use overtime only for crash programs.

6. New procedural handling of several series of maps such as NIS Summary Chapter I maps, NIS bases, City Plan maps and other miscellaneous series, has been initiated on an experimental basis in the Division. Plans have been worked out among the Branches to set up standard specifications for series maps. In practice this has been working excellently with a gratifying reduction of manhours of work on series maps.

7. The second volume of USSR Oblast maps being prepared by color separation process from original Russian maps for D/GC is well along in Reproduction. With proper scheduling of the balance of maps to be sent to Reproduction, it is anticipated this atlas can be completed by 1 February 1959.

25X1A9a

8. The Chief of the Far East Compilation Branch, [REDACTED] was on TDY during the past month.

A. SUMMARY FOR NOVEMBER 1958

PROGRESS REPORT FOR THE GEOGRAPHY DIVISION

November 1958

I. ACCOMPLISHMENTS

A. Completed Work

Production of the Geography Division during November consisted of two reports in the CIA/RR-GR series, CIA/RR-GM-11, one contribution to an NIS Chapter I Annual, and six support jobs in the G/E, G/I, and G/S series, as follows:

		Requester
CIA/RR-GR-185	Civil Divisions of the World: 25X1A2d2 Part V, Western Hemisphere	Department of State
CIA/RR-GR-200	[REDACTED] (UW: Yugoslavia)	DD/P, Army, Navy, AF
CIA/RR-GM-11	Macedonia: Perennial Bone of Contention	Self-initiated
NIS 42	Thailand. Contribution Chapter I Annual 25X1A2d2	NIS Program
G/E-88	[REDACTED]	Working Group on Antarctica, OCB
G/I-274	Population Concentrations in the Soviet Union	Collection Staff, OSI
G/S-40	Siberian Transportation Report Coordination	S/TR/RR
G/S-41	Review of NIS 13A, Section 63	M/FM/RR
G/S-42	Areas for Observations of IRBM and ICBM Indicators (research for Map 27138)	I/GM/RR
G/S-43	Moscow -- Location of GM Activities and Distribution of Selected Personnel by Addresses (research for Map 27240)	I/GM/RR

B. Planning New Work

Project Initiation Memorandum 61.11/17, Agroclimatic Analysis of Grain Production in Communist China, covers the request from Chief, Food and Agriculture Branch, M/AG, for an analysis of the climatic

S-E-C-R-E-T

limitations on grain production and a study of climatically analogous areas in non-Bloc areas of the Far East for the purpose of developing estimates of the grain yield potential in Communist China.

A communication of 1 November was received from the Directorate of Estimates, AFCIN-2, with enclosure that lists the center coordinates of general areas designated by SAC that are desirable as new evasion and escape areas. This requests that D/GG "research these general areas using the same criteria used for the Feasibility Studies previously published by your office and designate and publish for joint usage any evasion and escape areas that are developed." The requirement is further described as need "for the relocation of some of the existing areas in order to provide safety from fallout."

The Europe Branch has laid the groundwork for what is hoped will be a series of studies of agricultural regionalization in some of the European Satellites. Representatives of M/AG expressed an interest.

C. Progress of Work in the Branches and Staffs

Europe Branch: Published work this month included one unconventional warfare area study, the GM on Macedonia, and the last of the 25X6AA-RDP61-00391R00020033 divisions of the World Reports. The CIA contributions to Chapter IX, and NIS 11, Sweden, Section 19 portion of the Annual, were completed and transmitted to the Coordination Staff. In addition, progress was made on one evasion and escape geography, another UW study, and an urban area study. Assistance was given to the E Area in the preparation of agricultural maps of East Germany and review of Section 63, NIS 13A, East Germany. The report on Railroads of Poland was returned after review by the E Area, which objected to the economic conclusions and some of the factual data. These comments are being checked.

USSR Branch: Production progress for the month was good. Population Concentrations in the Soviet Union, G/I-274, was forwarded to the Collection Staff, OSI. The study on Geographic Analysis of Economic Region X, requested by S/Com, was completed and a preliminary copy furnished to the requester; however the maps are still in Reproduction, so the project is not being reported as completed. The proof copy of Agro-Climatic Evaluation of the Soviet Corn Program was received in the Division as the month ended. Two G/S jobs, the final products of which were maps, were completed: Areas for Observations of IRBM and ICBM Indicators and Location of GM Activities and Personnel in Moscow (G/S-42 and 43). The results of another G/S job (a thorough check of the ERA project on Siberian Transportation Developments) were transmitted both verbally and in the form of 10 pages of notes (G/S-40). The revision of the Soviet Arctic study and one UW report are in Editing. The city plans program continued to absorb a considerable amount of the research time of five analysts. The remainder of the research effort was devoted to other UW studies, support work for the Guided Missile Branch, the Section 19 contribution to the NIS Chapter I Annual on the USSR, and the USSR Intelligence Atlas.

S-E-C-R-E-T

Near East/Africa Branch: An MR article on Petroleum Concessions in the Persian Gulf has been planned, and information for the accompanying map has been delivered to D/GC. Progress was made on the special UW study on Lebanon for the Special Warfare School, Army, and on the evasion geography of Afghanistan; the drafts of both will be completed in December. For several years the Branch has been following the course of Soviet penetration into Africa and the Middle East. During the month material on penetration into Africa was examined more extensively with the idea of discovering a pattern or a method of operation that might permit prediction of future penetration efforts. Results were negative. Penetration will continue to be followed but with a different objective in mind.

Far East/Pacific Branch: Completed production during the month was unimpressive, but substantial progress was made on a number of scheduled projects. A draft of the Special Intelligence Supplement to CIA/RR-GR-198, Possible Guided Missile Ranges in Communist China, was completed and is now being coordinated with OSI and ERA. Redrafting of the study on China's hydroelectric power potential was finished. The analyst's post-editorial review of Regional Analysis of Northeast Thailand was virtually completed. Good progress was made on one UW area study, on the Ch'ongjin, North Korea, Target Study, on the proposed GM on Overseas Chinese in Southeast Asia, on the Provisional Atlas of Chinese Communist Administrative Units, and on the MR article on Recent Developments in Communist China's Autonomous Area Policy.

Considerable time was devoted to support of procurement activities, development of requirements, establishment of contacts with regional desks in DD/P, and to a developmental TDY visit to SAC Headquarters in connection with new E and E planning.

Special Research Branch: Effort during the month was devoted largely to the completion of intelligence and estimates on the planned Soviet expansion in Antarctica, and to the preparation of two lectures (one on astronomy and astrophysics and the other on geodesy and gravimetry) for the new OTR Scientific and Technical operations course being given to DD/P case Officers. The CIA contribution to [REDACTED] was submitted to the Coordination Staff. Action on the problem regarding the Latin American Boundary Report, G-20, is in abeyance pending receipt of requested information from PIC.

Coordination Staff: The Section 19 portion of the Chapter I Annual for NIS 42, Thailand, was completed and forwarded to OBI in mid-November. The Section 19 for 41-A, North Korea, which was due at the end of November, has not been completed. Coordination of the Chapter IX for NIS 2, Ireland, is nearing completion, and some of the material is in typing. The coordinated Chapter will probably be delivered to OBI in December, a month late.

Editing and Review Staff: The heavy editorial load is still continuing and shows no signs of letup. In addition to the work on completed reports as enumerated above, four additional reports are in various stages of editing, including The Soviet Arctic and Mainland China: Provisional Atlas of Communist Administrative Units. MR-56 was forwarded to

S-E-C-R-E-T

S-E-C-R-E-T

Reproduction 24 November, and MR-57 was initiated during the month. The problem of how to handle unclassified reports issued by the Division still remains. Some consideration has been given to the publication of such reports under the auspices of other Governmental agencies that have legitimate interest in the fields represented.

II. RELATIONSHIPS OUTSIDE THE GEOGRAPHIC AREA

25X1A9a

25X1A9a ✓ [redacted] visited SAC Headquarters at Omaha, in company with [redacted] to confer with SAC officers on new developments in E and E planning and on the SAC Target Charting program.

25X1A9a ✓ [redacted] Coordination Staff, visited the ACIC in St. Louis, Missouri during the third week of November. The trip is reported to have been most successful. Contact was made with the working-level personnel, and opportunity was provided for detailed discussion of the problems encountered in the coordination of ACIC contributions to the Chapters IX and related Sections 19.

✓ The ad hoc committee established for consideration of graphics in Section 19 met on 25 November to examine a graphic prepared by ACIC for NIS 41A, which is currently at the coordination stage. Both the content and presentation were favorably received by the committee, and the graphics will be forwarded to OBI with the completed text, along with the two graphics prepared by the Army and Navy. Questions concerning submission of reproduction materials, etc., for Section 19 graphics were discussed and resolved. At the close of the meeting, the ad hoc committee was dissolved, having accomplished its assigned mission. It was agreed, however, that the committee might be reactivated if future problems arise concerning Section 19 graphics.

The Chapter IX Subcommittee proposals sent to [redacted] 25X1A9a on 2 September still have not been presented to the NIS Committee. ✓ The suggestions made by him on 27 October as possible counterproposals have been given considerable thought by the Coordination Staff, and comments on these suggestions are being incorporated into a memorandum, copy of which will be forwarded to OBI.

25X1A9a ✓ Two branches report instances of interest in assistance that the Geography Division can give: 1. The Europe Branch has learned "that the E Area has instituted a policy of submitting reports prepared by them to D/GG for review when the subject is such that D/GG would have competence. In this connection the review of the Section 63, NIS 13A, East Germany, was undertaken." 2. The Far East Branch contacted [redacted] CSS, "concerning the problem of including GRA, where appropriate, in the process of effecting 'ORR concurrence' on OCI-produced items. He indicated that, in the future, he will contact the appropriate regional branch of D/GG as a part of the coordination process."

25X1A9a

25X1A8a [redacted] Board Assistant, [redacted] and Chief, WH/DD/P, on the planned Soviet expansion

S-E-C-R-E-T

in Antarctica and implications thereof to the U.S. position.
 2. Attendance at a meeting called by Mr. Lyddan, Deputy Director, USGS, on the definition of U.S. mapping requirements and the initiation of action for fulfillment. 3. Attendance at a meeting of the Working Group on Antarctica, OCB, for the preparation of a report to the OCB and NSC. In the presentation of the D/GG intelligence paper (C/E-88 on Soviet expansion), the Defense Department representative took strong exception to the estimate that the expanding Soviet program poses a challenge to U.S. prestige and could eventually lead to the erosion of U.S. preeminence in Antarctic affairs.
 25X1X7

✓ All members of the Arctic Working Group and other Agency personnel having an interest were contacted by [redacted] OCR Liaison, 25X1A9a on the Arctic Bibliography published by the Arctic Institute of North America, with regard to financial support of the program. [redacted] 25X1A9a is preparing a report (there was extreme reluctance to give support although no denial of its usefulness), and the matter will be discussed at the next meeting of the Arctic Working Group.

III. ADMINISTRATION 25X1A9a

25X1A9a [redacted] was transferred to the D/GG/S from D/GC/S effective 1 November. [redacted] Intelligence Assistant, resigned 26 November to be married, and [redacted] Intelligence Assistant, 25X1A9a has accepted a position with OCR with transfer effective 8 December. Applicants for these positions were interviewed.
 25X1A9a

× [redacted] received an award for Japanese language competence, his third award under the Agency's Language Incentive Awards program.
 25X1A9a

× [redacted] gave the regular lecture on geographic intelligence for the Intelligence Orientation course.

× Letters of appreciation were received from Mr. Amory for services rendered by Geography Division personnel to the Combined Agency Reserve Components.

IV. PROBLEMS

× A tremendous backlog of work is developing in the Coordination Staff. The schedule this year is particularly heavy and the possibility of meeting the FY 1959 commitments is remote.

MONTHLY REPORT FOR THE MAP LIBRARY DIVISION
November 1958

1. During November the Reference Branch serviced 1,273 requests with 23,046 maps, and 145 requests for publications, with 336 items. The map request total for November was 31 below that of October, while the publications request total increased by 27 this month over October's total. Thirty-three members of the Department of State came to the Reference Branch to obtain map materials during the month. Place Name requests totalled 132, and miscellaneous reference questions, 213. Owing to the Thanksgiving holiday, illness among staff members, and the pressure of work, only two trips were made to Vital Storage. [REDACTED] absence has slowed down the Map Library Vital Storage program considerably. Reference personnel have not been able to spend much time on this operation.

25X1A9a

2. In addition to the requests for maps and publications mentioned above, 2,540 charts were forwarded to requestors, in response to 102 requests for the Air Targets Material Program, and also 104 text items to satisfy 13 ATMP requests for publications.

3. The Cataloging and Indexing Section added to the Loan Copy Collection 1,026 new map titles, comprising 2,823 sheets. New publications processed for retention totalled 125 titles. 76 new SAC charts were indexed and 83 volumes were added to the Union Catalog.

25X1A9a

4. On 17 November 1958, [REDACTED] all of the Map Library, met with [REDACTED] OBI, [REDACTED] and [REDACTED] D/OC, to review Map Library requirements for NIS-type maps.

25X1A9a

25X1A9a

25X1A9a

5. 6,300 foreign-published maps were received by the Foreign Procurement Branch during November. France, [REDACTED] Brazil, [REDACTED] and Nigeria are among the leading countries from which maps were received.

25X6A

25X6A

6. Significant items received from foreign sources during November included over 1,800 topo sheets from IGN, Paris; administrative maps and road maps of Yugoslavia, published in 1958; a number of recent city plans of places in Hungary, the U.S.S.R., and East Germany; a 1:1,000,000 soil map of Bulgaria, published in 1956; a gazetteer on territories east of the Oder Neisse line; and a 1957 list of Czech, German, and Hungarian place name equivalents.

25X1A9a

7. [REDACTED] returned to Bonn on 17 November, following a three-week mission in Poland. [REDACTED] returned to Paris from Spain on 15 November.

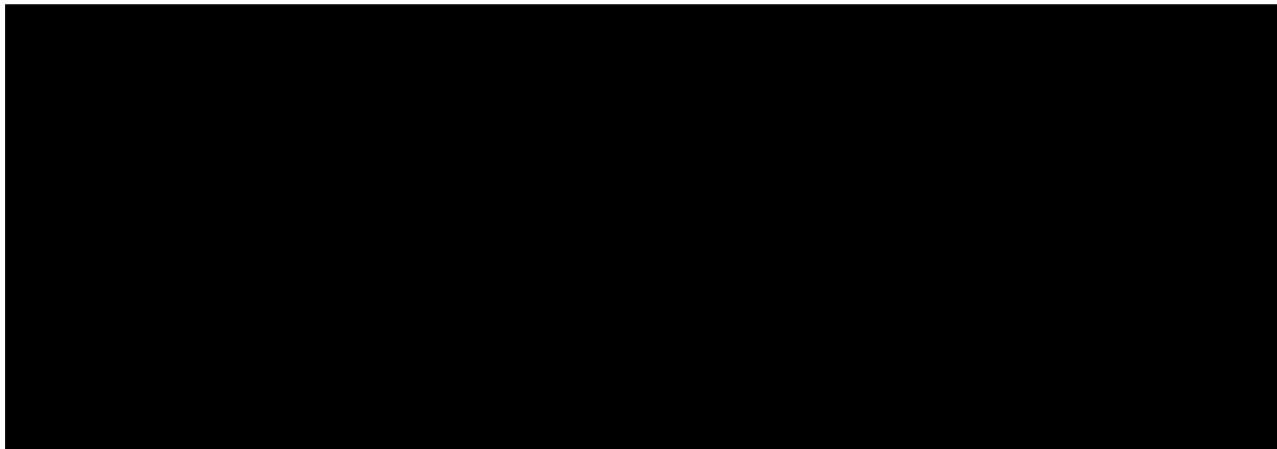

25X1A9a

~~S-E-C-R-E-T~~

25X1A9a a 10-day mission to Luxembourg is scheduled for him for December.
25X1A9a [REDACTED] was in Copenhagen during November, and is scheduled to go
to the Netherlands in January. [REDACTED] returned to Beirut on 25X1A9a
21 November; a brief trip to Jordan is planned for him for December.
25X1A9a [REDACTED] conducted procurement in southern India during November
and will be in Ceylon during much of December. [REDACTED] is 25X1A9a
presently in Southeast Asia. He has completed his mission in
25X1A9a Thailand and Laos and will be in Cambodia and Vietnam in December.
[REDACTED] is conducting procurement in Brazil and will return to
Buenos Aires in December.

8. The "List of Exchanges with Foreign Agencies" was revised
and is ready for distribution to the IAMPCC agencies.

25X1A5a1

25X1A9a

10. [REDACTED] visited [REDACTED]
of the Contact Division to explore Map Library sources and to brief
Contact Specialists on Map Library operations and requirements.

25X1A9a

11. [REDACTED] reported for duty as clerk-typist in the
Domestic Procurement Section on 24 November.

25X1A6a

12. Mr. Arthur Kendall, OC3, Department of the Army, was briefed
prior to his trip to the U.S. - U.K. mapping conference in London, the
NATO mapping meetings, and special missions to Germany, Greece, Libya,
and Italy. An exchange of cables with Kendall in Paris resulted in a
projected course of action whereby 1:25,000 sheets of Jordan, compiled
[REDACTED]

25X1X7

13. Other liaison activities included: a) briefing officers of the
Collection Branch, OCR/IACD; b) meetings with OSI personnel to develop
cut-outs for collection of information at various scientific and technical
meetings; and c) a meeting with [REDACTED] D/OC, to discuss coordination
of our requirements activities with D/OC. 25X1A9a

14. Outgoing communications for November totalled 181. 145 items
related to foreign procurement; and 36, to domestic correspondence.
